

Favour Funmilola Adebiyi - Frontend Developer

funmilolaadebiyi52@gmail.com | [Portfolio](#) | [LinkedIn](#) | +2347063099020 | Lagos, Nigeria

SUMMARY

Results-driven Frontend Developer with a solid foundation in building interactive and responsive web applications. Skilled in HTML, CSS, JavaScript, Vue.js, and React, with a strong eye for UI/UX design and optimisation. Experienced in developing clean and efficient code. Passionate about delivering high-quality user experiences and continuously improving through hands-on projects and self-directed learning.

EXPERIENCE

YouVerify

January 2024 – June 2024

Frontend Developer

Lagos, Nigeria

- Completed a verified six-month industrial training focused on applying and improving front-end development skills through personal projects.
- Gained hands-on experience in UI/UX design, mobile responsiveness, and JavaScript framework integration.
- Practised agile development and version control using GitHub and Visual Studio Code.

PROJECTS

Space Tourism Website

Focus: Framework Practice & Interactive UI

- Built a multi-page conceptual tourism site using Vue.js for hands-on framework experience.
- Integrated smooth navigation, tabbed content, and animations for an engaging experience.
- Demonstrated skill in component-based architecture and modern JavaScript workflows.

FinPay Landing Page

Focus: UI/UX & Mobile Responsiveness

- Built a responsive landing page for a fictional FinTech company (FinPay) focusing on clean layout, modern UI/UX, and mobile-first design.
- Developed with an emphasis on visual hierarchy and user experience best practices.

Sash Dashboard

Focus: Dashboard Layout & Visual Data Design

- Designed a responsive dashboard interface featuring static charts and a clean, organised layout.
- Emphasized visual structure, front-end design best practices, and full mobile responsiveness.

E-commerce Website

Focus: Functional Prototyping & User Interaction

- Developed a prototype of a fully functional e-commerce platform with interactive UI components.
- Implemented product listings, a shopping cart, and checkout functionality to simulate a real-world application.
